WORK EXPERIENCE

Junior AI Developer Dec 2025 - Apr 2026
Aiinfox Private Limited Mohali

- Served as an AI/ML Developer, proficiently handling employee data management in Excel while seamlessly integrating backend services with Python, Next.js, and LangChain. Achieved a 98% accuracy improvement in application features, resulting in the successful conversion of 60-80% of targeted leads into clients for a UK-based organization.
- Created and managed product listings on the Fashion4U website, achieving 90% accuracy and enhancing website efficiency by 88% for improved e-commerce performance.
- Executed SEO strategies for an online interview process website, realizing a 90% accuracy in optimization efforts.
- Designed and resolved issues on the company's official website, achieving a 60% success rate in bug resolution.
- Executed product CRUD operations, managing the delivery of 80% high-quality results on a food delivery application.

Python Developer Feb 2025 - Jul 2025
Baseline IT Development Mohali

- Implemented SQL queries and improved data flow processes, resulting in a significant reduction in ticket resolution time from 24 hours to just 6 hours by establishing a priority triage system.
- Played a key role in the operational tasks of a Django Flask application, achieving a 90% satisfaction rate among Australian clients.
- Involved in automating workflows with tools like Make.com and Monday.com, and executed tasks in the Odoo framework, focusing on token generation for the online gaming sector.
