Summary

IT professional with experience in diverse projects, demonstrating adaptability and teamwork in fast-paced environments. Skilled in data analysis, Python, and machine learning, which has equipped me to tackle complex challenges effectively. I thrive under pressure and consistently meet strict deadlines while also taking initiative when needed. My enthusiasm and dedication contribute to successful project outcomes and a collaborative team atmosphere.

Work Experience

- Junior AI Developer, Aiinfox Private Limited**12/2025 – 04/2026 | Mohali
 - Served as an AI/ML Developer, proficiently handling employee data management in Excel while seamlessly integrating backend services with Python, Next.js, and LangChain.
